

Host

The diagram illustrates the architecture of containerization. It features a large blue rounded rectangle representing the 'Host'. Inside the host, there is a white rounded rectangle labeled 'Container'. Within the container, there is a red hatched rounded rectangle labeled 'Layer di persistenza temporanea'. Below the container, there is a white rounded rectangle labeled 'File System'. Inside the file system, there is a white rounded rectangle labeled 'Docker area'. A line connects the bottom of the container to the 'Docker area', with an arrow pointing towards the 'Docker area'.
